**Subject:** Microsoft Settlement

I do not support the proposed settlement because I do not think it provides sufficient punishment to balance Microsoft's offenses, nor sufficient incentive to prevent them from doing the same in the future. Furthermore, the idea of punishing a monopoly by requiring them to extend their monopoly into the US educational system is incomprehensible.

Much has been said of finding a win/win solution. Please keep in mind that Microsoft broke the law and is supposed to be punished. They are not supposed to win.
